Revised 1-2013

Healing Horse Registry International
Registration Application – Page 2

Please document all hair swirl placement and type of swirl, i.e., tight, loose, elongated, etc. on the horse to be registered. Play close attention to base of mane and forelock area. Please draw placement of all swirls on diagrams below. Include 5 clear photos of your horse: front, behind, and each side. Please make the fifth photo a close up the front of your horse's head, careful not to cut off top point of ear or bottom of muzzle.

Since the **Legacy Horse Registration** is designed to honor those horses no longer on this planet, you are not required to fill out this section of the form. However, any information you can give us will be catalogued and appreciated. Please submit two photos of your choice if available.

Remember, a picture of your choice will be included on the website as well as your Registration Certificate.

Please number your photos submitted with your application and indicate which one you would like us to use on the website and registration certificate.
